

# **Serbia plugs in solar container outdoor power**

## Overview

---

How will solar projects be supported in Serbia?

The projects will be supported through contracts for difference for 15 years. The Serbian government has allocated a quota of 50 MW for its first solar auction. Solar plants with capacity of more than 500 kW will be allowed to participate in the competitive tendering process, with the ceiling price set at €90 (\$96.10)/MWh.

Can I use power plugs in Serbia?

Select your country of residence, to check the compatibility of your power plugs in Serbia. In Serbia, power plugs and sockets (outlets) of type F are used. The standard voltage is 230 V at a frequency of 50 Hz. For more information, select the country you live in at the top of this page. We don't sell power plug adapters.

Will Serbia develop a solar power plant?

The Serbian government is seeking a strategic partner to develop at least five PV plants with a cumulative capacity of 1 GW/1.2 GWh and at least 200 MW/400 MWh of battery energy storage. State power company Elektroprivreda Srbije (EPS) will own and operate the assets.
