

Single-phase supplier of mobile energy storage containers for chemical plants

Overview

What is a containerized battery energy storage system?

Our's Containerized Battery Energy Storage Systems (BESS) offer a streamlined, modular approach to energy storage. Packaged in ISO-certified containers, our Containerized BESS are quickly deployable, reducing installation time and minimizing disruption.

What are energy storage containers & cabinets?

Energy storage containers and cabinets are our flagship products, all in one design, easy to assemble and transport. Chisage' home energy storage system solution uses batteries to store the energy of solar panels, which can be used when there is no electricity. Our energy storage system consists of solar panels, inverters, and lithium batteries.

What types of energy storage are available?

As a professional energy storage manufacturer, we offer high-capacity lithium batteries, hybrid inverters, and large-scale solar panels. Not only can energy be stored from the photovoltaic system, but it can also store energy from the public grid for use when there is no electricity or high electricity prices.

Where can a portable power container be used?

The MOBIPOWER portable power container can be used virtually anywhere on the planet and will produce and store all the power you will need.
