

Small inverter sales manufacturer in Monterrey Mexico

Overview

Where is hoymiles manufacturing a microinverter?

Hoymiles announced it officially inaugurated its first overseas manufacturing facility in Monterrey, Mexico, marking a significant milestone in the company's global expansion strategy. The factory will focus on producing microinverters, such as the HMS-2000-4T and HMS-2000DW-4T series, for both residential and commercial solar applications.

Where are microinverters made?

The 6,700-square-meter facility, located in the Vynmsa Industrial Park, is equipped to produce microinverters such as the HMS-2000-4T and HMS-2000DW-4T series, aimed at both residential and commercial solar applications.

What are Xantrex inverters used for?

Xantrex products have also been widely used in Mexico to support the needs of green energy systems. Xantrex inverter products provide experience for various on-grid and off-grid applications. In off-grid applications, Xantrex inverters can be used and carried portably anywhere, such as being applied to RVs, trucks, and boats.

Which inverter is best for solar panels?

KANNDAS Solar's most famous inverter product is its microinverters. KANNDAS microinverters have capacities ranging from 300W to 1200W, which can be customized according to the needs of the solar panels owned by the user. In addition, this microinverter can work well to reach the maximum voltage of solar panels at 240V.
