

Solar 3kw off-grid solar container energy storage system

Overview

What is a 3KW off grid Solar System?

A 3kW off grid solar system is a cost-effective way to get power backups. This solar system comes with solar battery along with other solar components. These solar batteries allow you to store excess solar energy and use it later during an event of blackout. Now say goodbye to frequent power cuts with 3kW off grid solar system.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

What is a solar power generator?

A silent, worry-free alternative to loud and dirty diesel generators to meet high off-grid power needs using solar power generation – with optional wind turbine (s) for augmented power generation day and night. Harvested power stored in a choice of batteries including Lithium Ion, EV Second Life Batteries, and deep-cycle AGM batteries.
