

Solar Powered Outdoor Onsite Energy Sun Room solar

Overview

What is a high performance solar panel?

A high performance solar panel generates hundreds of watts of electricity which is stored in the system's sizable battery. The largest of the three models - the Power Station Premium 750 - delivers energy self-sufficiency on a significant scale for large garden offices and hobby rooms, or off-grid buildings with with multiple rooms.

Which Hubi Solar System is best for your off-grid space?

When you want to run bigger, more power hungry devices and equipment, the ultimate Hubi solution for your off-grid space is the Power Station Premium. A high performance solar panel generates hundreds of watts of electricity which is stored in the system's sizable battery.

Can you use Hubi off-grid solar power all year round?

Plug them in, switch on the light, and enjoy off grid solar power all year round. With the Hubi range of off-grid power solutions you can generate electricity in any room in your garden. Simple, easy set up and installation means that Hubi is ready for use in next to no time.

What can you do with an off-grid Solar System?

As well as lighting, the off-grid solar kits can power a range of devices and equipment. Use the 5V usb port for charging mobile phones and tablets and plug 12V fans, radios and TVs into the 12V port. The high-powered Power Station Premium has 12V ports and a 3 pin mains socket for computers, printers and power tools.
