

Solar bidirectional water pump

Overview

This paper presents a novel method for controlling the flow of electricity in both directions in an intelligent grid-interactive solar photovoltaic (PV) water pumping system. Does solar photovoltaic water pumping system have bidirectional power flow control?

ABSTRACT: A solar photovoltaic (PV) water pumping system with bidirectional power flow control is proposed in this research. The brushless DC (BLDC) motor-drive without phase current sensors is used to power the pump.

How does a solar water pump work?

A pumping system operated by a solar power-fed synchronous motor is also equipped with a two-stage energy conversion system 36. The PV is paired with a boost converter to increase output, which is optimized using the incremental conductance method. A PMSM-driven water pump with field-oriented control is also shown in 37.

Why do we need a bi-directional Converter for a water pumping system?

It is prevalent from the discussions that a grid-connected system using bi-directional converter provides better resilience and reliability with respect to water-pumping system even under low irradiation conditions and supplies the excess energy back to the grid.

What is a solar PV-based water-pumping system?

A solar PV-based water-pumping system is an integration of different subsystems that can be grouped into electrical, mechanical, and electronics. 5 Therefore, synchronous operation of these components becomes vital in achieving better efficiency.

Solar bidirectional water pump

Solar-powered ANN-based MPPT with zeta converter for BLDC motor water

Feb 25, 2025 · This paper explores the design and implementation of a solar-powered water pumping system that utilizes a Brushless DC (BLDC) motor, with an Artificial Neural Network ...

[Analysis and control of grid-interactive PV-fed BLDC water](#)

Oct 29, 2024 · In this study, a novel water pumping module fed by grid interactive Photo-Voltaic with a bidirectional Power Flow Control was proposed. In addition to improving the pumping ...

[Bidirectional solar water production enabled by a breathable ...](#)

Nov 15, 2024 · Solar-driven interfacial water evaporation offers a promising solution to the global scarcity of freshwater. Despite advances in increasing evaporatio...

[GRID BASED SOLAR POWERED WATER PUMPING WITH ...](#)

Jan 18, 2025 · ABSTRACT: A solar photovoltaic (PV) water pumping system with bidirectional power flow control is proposed in this research. The brushless DC (BLDC) motor-drive without ...

Optimized Bidirectional Power Flow Control in Grid-Connected Solar ...

This paper presents a novel method for controlling the flow of electricity in both directions in an intelligent grid-interactive solar photovoltaic (PV) water pumping system. The water pump in ...

[SMART SOLAR-POWERED WATER PUMPING SYSTEM WITH...](#)

Apr 30, 2025 · This paper deals with a single stage solar powered speed sensorless vector controlled induction motor drive for water pumping system, which is superior to conventional ...

[A review of various components of solar water-pumping ...](#)

A solar PV-based water-pumping system is an integration of different subsystems that can be grouped into electrical, mechanical, and electronics. 5 Therefore, synchronous operation of ...

[Bi-Directional Power Flow Control in Grid Integrated Solar ...](#)

Dec 17, 2022 · This paper proposes a grid connected solar photovoltaic (PV) fed water pumping system for agriculture and irrigation purposes, with bi-directional power flow functionality. PV ...

China bidirectional water pump manufacturers, bidirectional water pump

With years of experience in production bidirectional water pump, Guangdong Ruirong Pump Industry Co., Ltd. can supply a wide range of bidirectional water pump. bidirectional water ...

[A Reliable Switched Reluctance Motor Driven Solar ...](#)

Jul 27, 2022 · Abstract This paper presents a battery supported standalone solar water pump (SWP) drive employing switched reluctance motor (SRM). This drive uses a three-level ...

[Solar PV Fed System for Water Pumping and Domestic ...](#)

Mar 2, 2024 · ABSTRACT: The goal of this endeavor is to construct a PMs and, in contrast to induction motors, have little rotor bidirectional grid-based solar PV fed system for domestic ...

[Efficient Integration of BLDC Motors for Grid-Tied Solar PV ...](#)

Jun 26, 2024 · This article introduces an innovative methodology for enhancing bidirectional power flow control within grid-connected solar photovoltaic (PV)-fed water pumping systems. ...
