

Solar panel manufacturer MCS

Overview

Who are MCs solar panel installers?

MCS solar panel installers should be members of either the Home Insulation & Energy Systems Contractors Scheme (HIES) or the Renewable Energy Consumer Code (RECC). Membership of these schemes ensures consumers are protected by a Trading Standards Institute Approved Code of Practice.

Do you need an MCS certification for solar panels?

There are MCS certifications available for solar panels and installers, which when combined should mean your installation goes smoothly. You should also look for products and specialists with a Flexi-Orb certification, which will ensure the same high standards. Why is the MCS certificate important?

.

What is MCs' new solar PV standard?

NATIONAL CERTIFICATION scheme MCS (Microgeneration Certification Scheme) has this month published a new update of their Solar PV Standard. The timely new Standard comes as strong signs of recovery can be seen after a turbulent 18-months for Solar PV installers.

Do solar panels have MCs?

Do not have MCS In Aug 2018, we bought a house (built 2013) with Solar Panels. The vendors got the house from the builders who installed the Solar Panels (PV). During the buying process, we inquired about the solar panels and the buyers mentioned they don't have MCS. But Solar Panels are included in the fittings, so I can prove the ownership.
