

# Solar panels in the Philippines

## Overview

---

How much do solar panels cost in the Philippines?

The cost of solar panels in the Philippines varies based on property type and other factors. For commercial properties, prices typically range from ₱20,000 to ₱30,000 per kilowatt, while residential installations usually cost between ₱30,000 and ₱50,000 per kilowatt.

Are solar panels a good choice in the Philippines?

As the Philippines embraces renewable energy, solar panels are increasingly becoming a popular choice for homeowners and businesses alike. With abundant sunlight year-round, this archipelago is ideally situated to harness solar power.

How many solar panels have been installed in the Philippines?

At present, SolarNRG Philippines has completed more than 30MWp installed grid-tied solar systems for residential developments, commercial clients, and industrial clients or developers. To put things into perspective, this is more than 75,000 panels installed and 125,000 MWh saved!.

Where to buy cheap solar panels in the Philippines?

The cheapest offers of solar panels in the Philippines can usually be found in online stores or solar equipment distributors. There we can find opportunities for panels from lesser-known brands at promotional prices. However, when buying a very cheap panel, you should be careful about unfair offers and contraband.
