

Solar system prices in Ireland

Overview

How much do solar panels cost in Ireland?

Every house is different. However, you can expect to pay between €6,000 and €16,000. The costs cover the solar panels, inverters, mounting equipment, and installation fees. There are SEAI grants of up to €1,800 available. The good news is that the cost of solar panels in Ireland has reduced significantly in recent years.

Are solar panels a good investment in Ireland?

With rising energy costs and generous SEAI grants available, solar panels have become one of the smartest long-term investments for Irish homes and small businesses. In this guide, we'll break down the average cost of solar panels in Ireland, what influences the price, available grants, and how quickly you can expect to make your money back.

How long do solar panels last in Ireland?

It typically takes around 5-6 years to recoup the cost of solar panels in Ireland. After that, you can enjoy free electricity for the remaining lifespan of your panels. Most solar panels come with a 25-year warranty, so you should be getting renewable energy from your roof for at least that long.

What type of solar panels are available in Ireland?

Panel Type and Quality: Solar panels vary in efficiency and durability. In Ireland, photovoltaic (PV) panels are the most popular choice, with options like monocrystalline panels offering higher efficiency and a longer lifespan. These may cost a bit more initially but can deliver better long-term savings.
