

South African Electric solar Glass

Overview

Does ClearVue offer solar integrated glass units in Africa?

ClearVue Technologies has launched its solar integrated glass units into the vast African market after signing an exclusive five-year deal to have its products distributed in South Africa, Lesotho and Botswana.

Can glass solar panels be used in building facades?

Through a collaboration between Australian glass solar technology developer ClearVue and local technology distributor Concept Business Solutions, a novel transparent glass solar panel technology for use in building facades has been launched in South Africa.

What is the best glass skylight in South Africa?

The Fixed Skylight manufactured by Tony Sandell Roof Windows of Cape Town [previously marketed as SOLIS], is the most popular glass skylight in South Africa. With flashing kits for all roof types, mostly from epoxy-coated aluminium, there is no re-waterproofing required after installation. EVER! We guarantee that (three year guarantee)!.

Will ClearVue be made in South Africa?

Boyd said that a major South African glass manufacturer was in discussions to assemble the product locally, combining ClearVue's patented solar technology, manufactured in Australia, with locally made glass panels. However, he said the aim is to have the full product manufactured in South Africa as soon as possible.
