

# **Super Farad capacitors produced in Spain**

## Overview

---

Who is international capacitors?

Energy, Electricity industry supplier. International Capacitors, SA with our LIFASA brand, is a company consolidated in the electricity market dedicated to the manufacturing of power capacitors and solutions for power quality with presence worldwide.

What is a supercapacitor?

A supercapacitor is a double-layer capacitor that has very high capacitance but low voltage limits. Supercapacitors store more energy than electrolytic capacitors and they are rated in farads (F). Supercapacitors store electrical energy at an electrode-electrolyte interface.

What are the best EV supercapacitors?

Gold Capacitors: Panasonic's gold capacitors offer high energy density and stability, making them ideal for backup power in electronic devices. EV Supercapacitors: These are specifically designed for automotive applications, providing efficient energy management for electric and hybrid vehicles.

What is the supercapacitors market?

The Supercapacitors Market is characterized by its fragmented nature, consisting of various specialized companies that emphasize innovation and niche applications. While global players are present, several local firms shape the landscape, indicating a diverse competitive environment where specialized manufacturers often cater to targeted needs.
