

# Uninterruptible power supply equipment for Beirut Hospital

## Overview

---

Why do hospitals have uninterruptible power supplies?

Many hospitals have uninterruptible power supplies dedicated to specific testing bays to ensure a smooth and constant supply of utility power. Navigate outages safely and effectively during emergency situations.

What is ups for medical centers & hospitals?

UPS for medical centers and hospitals deliver backup power in emergencies and ensure power conditioning for critical equipment. Learn more.

What is a medical ups ul 60601-1?

Each medical UPS is UL 60601-1 tested to provide standby power in patient-care settings and comes with hospital-grade plugs and hospital-grade outlets, and a built-in isolation transformer. CyberPower manufactures high-quality uninterruptible power supply and UPS products for hospitals, medical clinics, and healthcare facilities.

Why do medical facilities need a power supply?

In medical facilities and hospitals, there are many devices and equipment used to treat patients and protect their lives. In order for these to operate stably, it is extremely important to secure a power supply. Stopping equipment due to unexpected power outages or other power problems puts patients at risk, so this must be avoided.
