

Uzbekistan can reduce the number of square meters of solar panels on its roof

Overview

How can Uzbekistan improve the use of solar energy resources?

To enhance the use of solar energy resources in Uzbekistan, we recommend the government consider incorporating, as appropriate, all measures listed in the roadmap into its solar energy strategy toward 2030 and beyond. BNEF (Bloomberg New Energy Finance) (2019), *Industrial Heat: Deep Decarbonization Opportunities*.

Will Uzbekistan reach its maximum capacity of solar energy?

Nevertheless, a more comprehensive set of policies and support mechanisms will be required to reach Uzbekistan's maximum capacity of solar energy and further increase solar energy toward 2030. The government should consider bundling the range of actions needed to ensure the use of all types of solar energy resources.

What is Uzbekistan's solar energy vision?

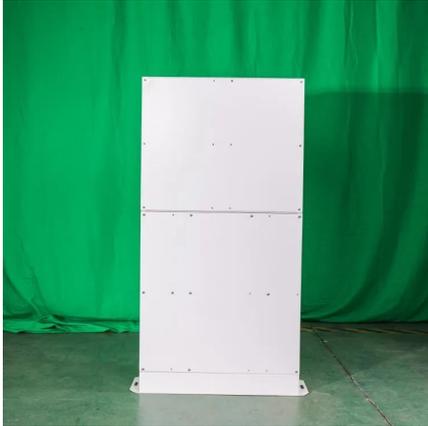

It outlines the sustainable energy environment solar energy could deliver and offers a timeline up to 2030. In this vision, Uzbekistan succeeds in maximising the benefits of solar energy capacity for both electricity and heat, making solar energy one of the country's major energy sources.

Does Uzbekistan need a solar energy roadmap?

The government of Uzbekistan needs to periodically monitor its progress toward a solar energy future and to review policies and actions where appropriate. This roadmap provides a timeline through 2030 with key actions.

Uzbekistan can reduce the number of square meters of solar panels

By equipping the roofs of buildings in Uzbekistan with solar panels...

Feb 3, 2025 · To stimulate the installation of solar panels and water heaters in Uzbekistan, 2 trillion soums of preferential loans will be allocated. When equipping the roofs of houses and ...

[Uzbekistan to equip half of all building roofs with solar panels](#)

Jan 29, 2025 · Uzbekistan plans to launch an ambitious energy efficiency programme, which includes equipping at least 50% of building and house roofs with solar panels. In an interview ...

[Uzbekistan to equip half of all building roofs with solar panels](#)

Jan 28, 2025 · Uzbekistan plans to launch an ambitious energy efficiency programme, which includes equipping at least 50% of building and house roofs with solar panels, reports ...

[A solar energy roadmap for Uzbekistan by 2030](#)

Dec 1, 2025 · Uzbekistan has great renewable energy potential, especially for solar energy. With a view to ensuring energy security while optimising renewable energy resources, the ...
