

Villa solar split system

Overview

What is a solar mini split?

So what makes it solar?

A solar mini split is simply a mini split system powered by solar energy, either directly from solar panels or indirectly through battery storage. Some systems are built for direct DC solar input, while most standard models run on AC power, which means you'll need an inverter to power them from solar panels.

What is a hybrid solar mini split unit?

The Hybrid Solar Mini Split Unit is ideal for expanding or upgrading your system. It includes the A/C unit only and integrates with both solar and grid power.
