

Vilnius home solar panels

Overview

Will Vilnius have a new heat and power plant?

A new combined heat and power plant in Vilnius will be able to produce about 40% of the heat centrally supplied to Vilnius. The remaining heat demand would be met by other independent heat producers and a heat supplier.

Are SoliTek solar panels sustainable?

SoliTek solar panels are the first and only in the world to have the prestigious Cradle to Cradle gold certification, known as the "Oscar" of sustainability. As a manufacturer of renewable products, SoliTek goes even further. It's a net zero PV company, using exclusively 100% renewable energy in its module manufacturing.

Can SoliTek solar modules be installed on a roof?

SoliTek solar modules are so tough that they could be installed not on the roof, but instead of roof (just as roof tiles). Yet, SoliTek doesn't stop here. Their R&D team is always on for new ways to integrate solar energy to improve daily life.
