

Which outdoor base station is better

Overview

Why should you choose TP-Link outdoor wireless base station?

With its centralized management platform and high degree of flexibility, it is the ideal choice for providing point-to-point, point-to-multipoint, and outdoor Wi-Fi coverage. The TP-LINK Outdoor Wireless Base Station pairs professional performance with user-friendly design, making it the perfect solution for both business and home users.

What is Damm bs421 outdoor system?

Mast-mountable and compact IP65-encapsulated TETRA system, a powerful base station transceiver and distributed controller ideal for outdoor or indoor mounting. The DAMM BS421 Outdoor System is a mast-mountable and compact IP65-encapsulated TETRA communication system.

Why should you choose Damm's outdoor TETRA system?

The compact design of DAMM's outdoor TETRA system enables direct mounting on antenna masts, buildings and towers, reducing installation costs considerably. Thanks to the low power consumption our base stations generate minimal heat, and together with the IP65 encapsulation this eliminates the need for cooling fans that require maintenance.

Are Damm base stations IOP certified?

As an independent TETRA infrastructure provider DAMM Base Stations are IOP certified for full compatibility with all TETRA terminals, providing you with the option to freely choose your favourite terminal brand.
