

Wholesale substation breaker in London

Overview

We are a leading UK supplier of containerised transformer and switchgear substations, switchboards & switchrooms from LV distribution up to 6.6kV, 11kV, 20kV & 33kV. Manufactured and tested in accord.

Do you offer packaged substations?

To complement our transformer supply, we offer fully integrated packaged substations. Utilising industry-leading solutions, we stock a comprehensive range of MV switchgear and LV cabinets that can be close-coupled to transformers or free-standing. Our options include a packaged solution fully procured by us or free-issued by the customer.

What is a package substation?

Our package substations offer a compact and versatile solution, designed to house essential electrical equipment securely. Whether you require a temporary, scalable power solution, or a backup power source, our package substations provide a dependable and efficient way to manage power distribution in various settings.

What is a containerised substation?

Containerised substations are constructed and tested at our factory to allow quick 'plug and play' installation and commissioning on-site. We sell and hire containerised equipment on a 'supply only' basis, or with optional on-site installation, cable works and commissioning by our own Contracting division. Looking for containerised solution?

.

Why should you choose a compact & modular package substation?

Our compact and modular package substations are engineered for effortless installation and upkeep. Tailored to varying voltage levels, environmental conditions, and regulatory standards, each design ensures optimal performance and durability.
